Notes

1 Adjustment codes:

Non Attendance (NA) - The NHS Board may adjust waits if a person does not attend or rearranges an appointment. Their waiting time is reset to zero

on the day that they do not attend or contact the service. The timing of the next offered appointment is a clinical decision.

Unavailability (U) - The NHS Board may adjust waits where a patient is unavailable for treatment. This period of time is subtracted from their total waiting time.

Refuses Reasonable Offer (RO) - The NHS Board may adjust waits if a patient refuses a reasonable offer (2 or more different dates of appointment). Their waiting time is reset to zero if it is clinically appropriate to do so. NHS Boards report that this happens very rarely as most appointments are agreed by telephone.

2. Due to rounding it might not add up to 100%
